“Solutions for Today’s HVAC Problems”

NOW YOU CAN OPEN & CLOSE YOUR ACETYLENE TANK VALVES QUICKLY AND SAFELY with...

THE JOB KNOB

Most acetylene tanks require a special wrench or pliers to open and close the valve stem. The JOB KNOB quickly fits on the valve stem, provides a secure grip and stays on magnetically until it’s time to exchange tanks when it slides easily onto the new stem.

- ★ OPEN/CLOSE VALVE STEMS EASILY
- ★ FITS LARGE AND SMALL TANKS
- ★ HOLDS SECURE MAGNETICALLY
- ★ 2 LB. DRAW FROM MAGNET
- ★ TEMPERATURE RANGE: -50/+400°F
- ★ RE-USABLE/DURABLE

MAGNETIZED
