

INVERTER GENERATOR

P3000 POWERSMART SERIES™

3,000 STARTING WATTS | 2,600 RUNNING WATTS*

POWERSMART SERIES™ TECHNOLOGY

Inverter technology produces smoother power that's safe for sensitive electronics

PERFECT FOR QUIET CAMPING

Consistent, quiet power that traditional camping generators can't match

LCD STATSTATION™

- Total power used
- Total unit hours
- Maintenance reminders

USB PORT

Charge your portable electronics to stay connected

PARALLEL CONNECTOR PORT

Connect two units together for more power

2 PERSON CARRY AND LUGGAGE-STYLE TELESCOPING HANDLES

The H-beam handle on top of the unit makes it easy for 2 people to carry the unit. The telescoping handle makes for easy, convenient maneuverability to pull the unit from one place to another

2

YEAR LIMITED WARRANTY*
AÑOS DE GARANTÍA LIMITADA

* Generators are certified in accordance with CSA (Canadian Standards Association) standard C22.2 No. 100-04 (motors and generators) and rated in accordance with PGMA (Portable Generator Manufacturers' Association) standard PGMA 200 (Standard for Testing and Validating Performance of Portable Generators). † For full warranty details visit www.briggsandstratton.com

INVERTER TECHNOLOGY Produces smoother power that is safe for sensitive electronics, runs quieter, is lighter than traditional camping generators and is fuel efficient with a PowerSmart mode that only uses as much power as needed from the unit.

THE POWER WITHIN™

DID YOU KNOW? Briggs & Stratton sends out a Safety First campaign twice a year to alert consumers about the dangers of Carbon Monoxide (CO) poisoning during the use of a portable generator. Engine exhaust contains CO, a poisonous gas that can kill in minutes. You CANNOT smell it, see it, or taste it. Only use OUTSIDE and FAR AWAY from windows, doors and vents. Direct the engine exhaust away from potentially occupied spaces. Install CO detectors/alarms in living areas.
