

FILTER PULLER/PUSHER

***The Filter Puller/Pusher Is A 'Must-Have' Tool
for All HVAC Maintenance Technicians!***

- Telescopes from 12 inches to 7 feet
- Easy to store or carry, it fits comfortably into your toolbox
- The hook pivots to position a powerful magnet that retrieves dropped hardware from the job site
- Its long reach and durable construction make the Filter Puller/Pusher the most convenient and reliable way to replace filters in even the largest systems

Part #FPP-1 Filter Puller/Pusher
