

Specifications

- Product** Pro-Treat 152
- Application** Drain pans, humidifiers, and cooling towers
- Purpose** Wagner Pro-Treat 152 is a concentrated king sized tablet that will treat drain pans, humidifiers and cooling towers for up to 3 months. Wagner Pro-Treat 152 is designed to penetrate, break up sludge and allow it to flow out of the drain pan along with the condensate water. It also kills odor and combats sludge, slime, fouling and pan overflows.
- Advantages** Wagner Pro-Treat 152 is a king-size tablet that lasts up to 90 days, reducing the service interval required for larger HVAC units. The treatment dosage is 1 tablet per 3 tons of system capacity. This adds convenience and economy since only one size tablet is required for treatment even when servicing multiple sized units.
- Dosage** 1 tablet per 3 tons of system capacity
- Directions** Position the king size tablet in the pan so that it is moistened by condensate water. The tablet should be placed as far from the drain as possible, but still in contact with the condensate water. For best results, do not allow the tablet to become submerged in the condensate water.
- Safety Data** Consult the Material Safety Data Sheet before using this product. Do not use this product until you have read all warning statements on the label and have consulted the MSDS. Avoid eye contact and prolonged skin contact. Do not take internally. Wash hands thoroughly after using this product.

Keep out of reach of children.
